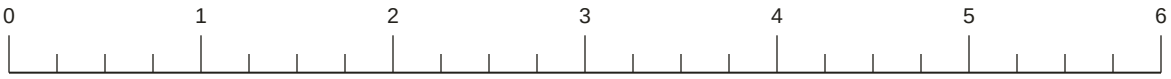
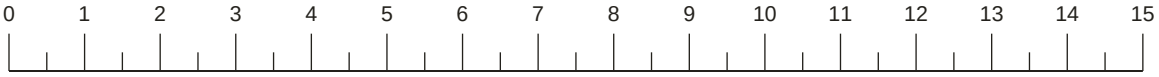
Journey Book print check

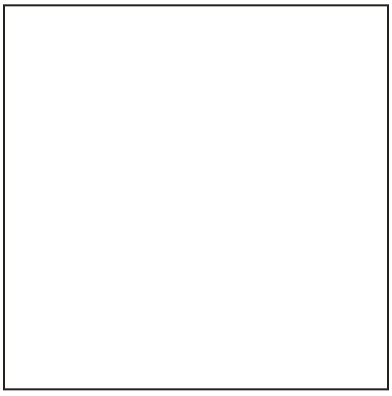
1. Print this page at 100% ("Actual size"), not "Fit to page".
2. Hold a real ruler against each scale below, including the tall one on the right.
3. If they match, your printer is true to scale and your atlas scale bars can be trusted.



6 inches



15 centimetres



A 2-inch square. If its sides differ, the printer scaled the page unevenly.

8 inches, top to bottom

If a scale prints short or long, turn off any scaling in the print dialog and try again. A page that prints scaled makes every distance measured on the atlas wrong by the same amount.
